

Pilot Seminar Series

Join us to hear results and future research plans from recent HERCULES Pilot Program awardees.

Tuesday, October 20th, 12:00-12:50 pm

RSVP [HERE](#) for Zoom Information

“Serum Lipidomics of Pregnant African American Women Exposed to Environmental Toxins”

Anna Ivanova, PhD, Associate Scientist,
Emory Lipidomics and Metabolomics Core
Dr. Ivanova explored which lipid molecules are related to poor pregnancy outcomes in African American women exposed to different environmental substances.

“The Metabolome of Passive Cigarette Exposure in Children”

Jeannie Rodriguez, PhD, RN,
Assistant Research Professor, SON

Irene Yang, PhD, RN,
Assistant Professor, SON

Drs. Rodriguez and Yang studied whether saliva and/or exhaled breath collections can be used to identify exposure to e-cigarette vapor in children.
