# Pollen Graphing Activity

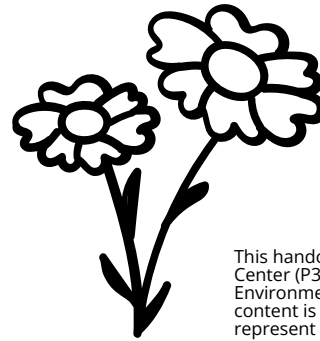

### Daily Max Temperature and Pollen Count, ATL

Temperature data from NOAA (ATL Fulton Airport) and pollen data from Atlanta Allergy and Asthma (March 2025)

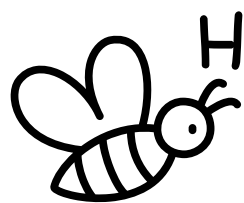

## Graphing Questions

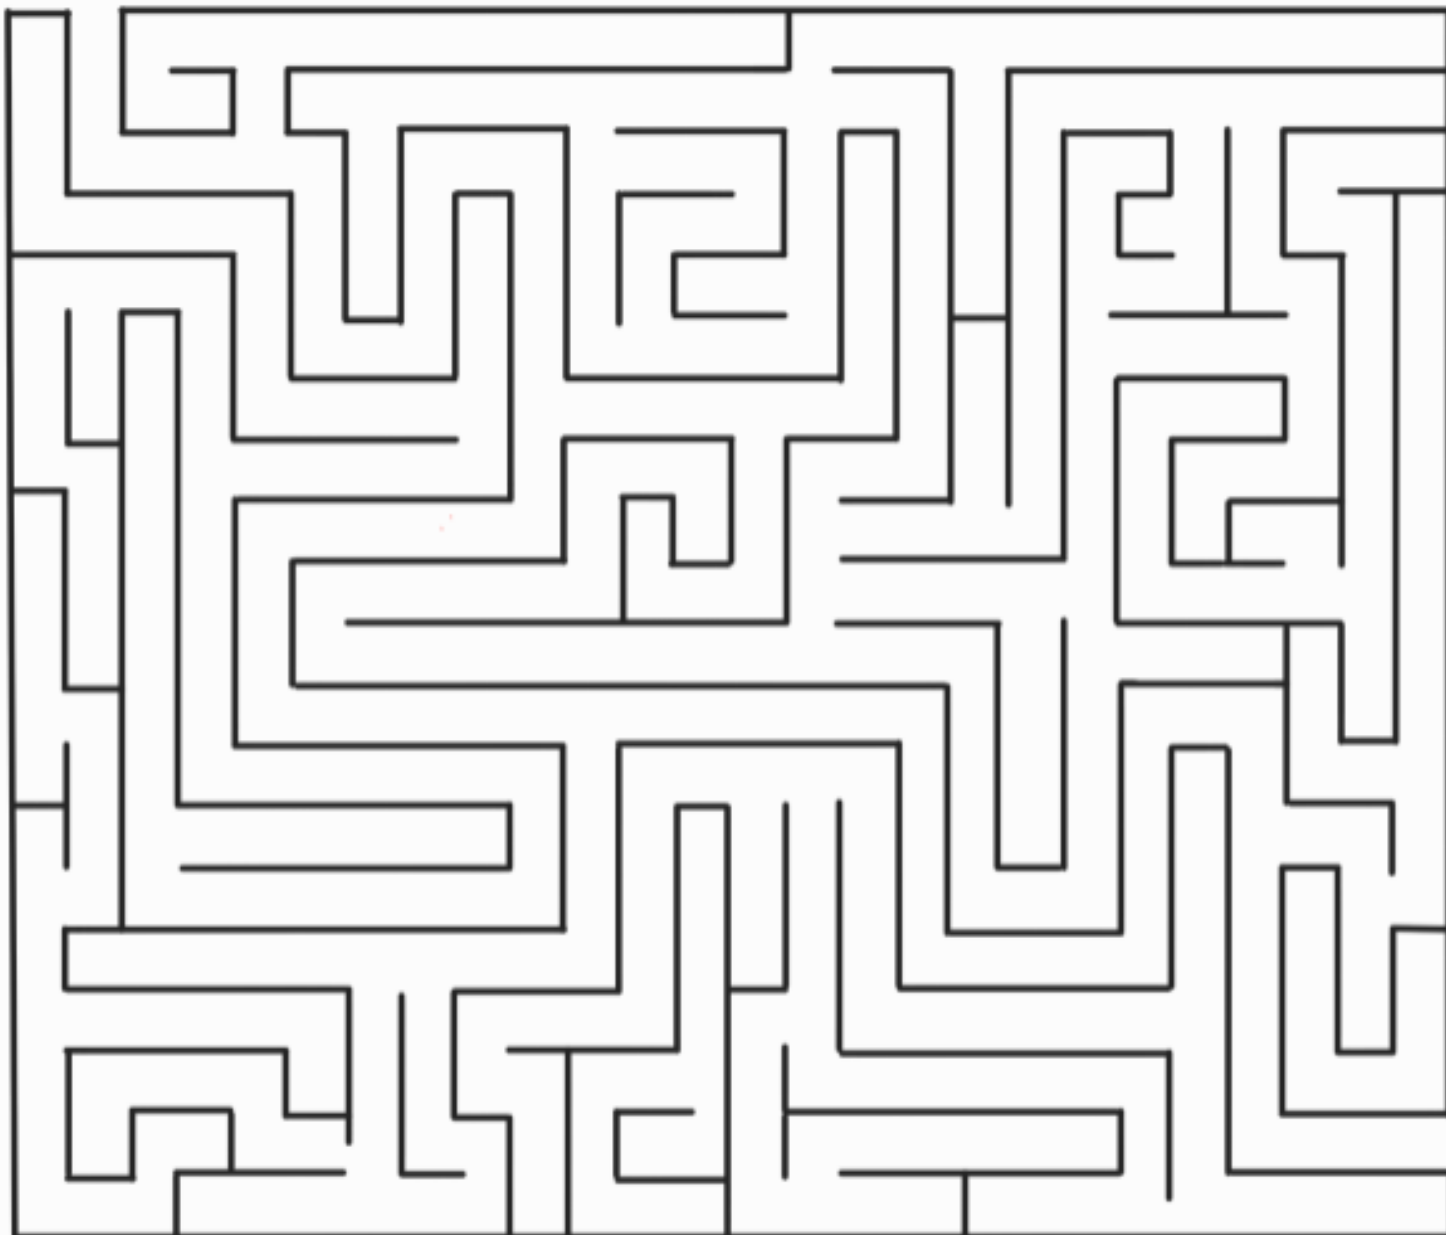

- What is this graph telling us about?
  - Bees and Birds
  - Daily Temp and Pollen Count
  - Rain Levels
- What do you notice as the temperature increases (orange line)?  
What happens to the pollen count?

This handout was created by Emory's HERCULES Exposome Research Center (P30 ES019776), which is funded by the National Institute of Environmental Health Sciences of the National Institutes of Health. The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Institutes of Health

## Help the bee find its way to the flowers to collect pollen!

Pollen is a fine powder made by plants. We need pollen for fruits and vegetables to grow and bees use it to make honey!

Pollen season is the worst during the months of April, May and September in Atlanta.

You can check the daily pollen count by visiting:

[https://www.atlantaallergy.com/pollen\\_counts/](https://www.atlantaallergy.com/pollen_counts/)

or by downloading the Pollen Wise app.
